Blog with Api

Miquel Abella
Berta Garcia

WHAT DID WE LEARN DEVELOPING THIS PROJECT?

- Different http verbs used to fetch data to interact with APIs.

- How to handle display data received from a http request and how to remove/update data of an API.

- How to create a local server.

- How to work with Bootstrap.

WHICH PROBLEMS DO WE HAD DURING THE PROJECT?

- How to interact between modals and Main Page.

- How to collect all the data from id and be able to show them in the modals.
